4. METHODOLOGY

5. CORPORATE GOVERNANCE

13. ECONOMICS

14. Stockholders

Ownership structure and form of incorporation
Payments to capital providers

18. Customers

Automobile sales
Turnover

22. Suppliers

Global purchases
Purchasing by country and local content

24. PRODUCTS

25. Greenhouse effect

Alternative technologies and propulsion systems
PSA Peugeot Citroën sales by type of fuel
PSA Peugeot Citroën registrations by CO₂ emissions level
Fuel efficiency and CO₂ emissions

33. Air quality

Vehicle exhaust emissions

37. Eco-design and recycling

Eco-design
Recycling end-of-life vehicles

39. Noise emissions

Noise emissions
Vehicle noise standards

41. Road safety

Primary safety
Secondary safety
Tertiary safety

44. Customer relations

Quality
Compliance with health, safety and customer privacy standards
Advertising, communication and consumer information

Contents

47. ENVIRONMENT

51. Greenhouse effect

Direct energy consumption
Direct greenhouse gas emissions
Indirect greenhouse gas emissions

58. Air quality

NO₂, SO₂ and VOC emissions
Use and emissions of ozone-depleting substances

62. Use of resources

Total water use
Raw materials used

65. Recycling

Total weight of waste by type and disposal method
Transported waste shipped internationally

71. Natural habitats

Material effluent discharge
Accidental spills
Biodiversity

74. SOCIAL AND SOCIETY

75. Employment

Workforce
Changes in the workforce
Human resources planning and development
Skills management and training

94. Social relations

Social dialogue

97. Human rights and ethical practices

Gender equality and diversity
Human rights

107. Working conditions

Occupational accidents
Health policies
Joint management-worker health and safety agreements and committees

116. Compensation

Compensation practices
Employee benefits

122. Community

Local sponsorship and social responsibility action plans

124. Ethical practices

Conflicts of interest, corruption and anti-competitive behaviour

126. GRI INDEX

132. REVIEW REPORT
